COVER

RECEIVED

JUN 25 2010

Dear Director of the USPTO:

This Mailing, certified as mailed this date, June 18, 2010, ^{OFFICE OF PETITIONS}
by US Postal Service, contains:

A) Petition to the Director, under 1.181(a), Due to No Fault of My Own.
Eleven Sheets. Handwritten by me, in single-pass-draft. (Apologies).
Dated and Written June 14, 2010.

B) Supportive Enclosures:

1) Authentic Copy of Letter (two sheets) to me, from
Social Security Administration Date: May 28, 2010.

Documenting my Social Security Disability Income of \$329/month,
and my Supplemental Security Income of \$536/month,
comprising my total monthly income of \$865/month.

Said Letter (second sheet) attests "disability began Jan. 1, 2000",
signed, stamped and confirmed by SSA, Office Mgr., San Marcos, CA.

2) Copy of my Housing Voucher, 3/4/09, attesting "APS": victim of crimes.

C) "Please Advise U.S. Department of Commerce, US Treasury, and
Our President's Executive Cabinet".

Three Sheets, Handwritten by me, in single-pass-draft. (Apologies).
Dated and Written June 18, 2010.

D) Further Informative to c): my June 17, 2010 letter (two sheets) to
my Dept. Housing & Community Development, County of San Diego.
Handwritten by me, in single-pass-draft, to my CoSD case manager (s).

(contains Second Page: Front-End [re c]) and Back-End (civic swap my tax facility).

This Second Page Drawing, and D) and c) constitute my Business Method,

of my own pro-se independent invention and design, thus, Patent Pending.

All Rights Reserved. I have no Licensee on Any of My Works, and Not used my Facility.

Sincerely, David Andrew D'Zurra *David Andrew D'Zurra* pro-se Independent Inventor (us/us).

Petition to the Director (at no charge)
under 1.181(a)

Due to No Fault of My Own

Re: Please restore and provide to Me, at no charge, under 1.181(a), Replacements
of my six U.S. Patent Ribbon Copies (certified and sealed Duplicate
Letters Patents). My Six U.S. Patents, each of which I am sole Owner
and sole Lawful Entitled, none of which Assigned, Sold or Transferred:

- 1) #6,776,618 "Method of Determining Zodiac Signs";
- ✓2) #6,974,325 "Astrological Charts and Plotting Devices";
- ✓3) #7,083,415 "Stars in Ecliptic Coordinates";
- ✓4) #7,195,488 "Astrological Tarot and Alpha-Numerology";
- ✓5) #7,236,952 "Invention in Finance"; and,
- ✓6) #7,357,638 "Astrological Horoscopes".

I have never gifted or donated any of these works, or any part, Invention(s),
or Divisional(s) thereof, or provided any express written permissions for
their utilization, commercialization, publication, or distribution. I have
never given any person any occasion or permission to have ever touched
any of my Ribbon Copies, USPTO correspondence or my Texts, Drawings,
archives, files, receipts (filing or mailing), photo copies or hard copies.

Dear Sir:

Due to no fault of my own, my Ribbon Copies of each of my six U.S.
Patents (listed above) were stolen/lost/destroyed by felons, not by me.

Page Two of Eleven

Due to No Fault of My Own

In the period, 11/2008 through 12/2009, I, and my belongings, were viciously attacked in my home - an apartment I rented using my Section 8 Housing Choice Voucher (HUD), wherein I was sole tenant/resident/lessee/inhabitant.

Cruel sick trespassers invaded, illegally, my home when I was out, and, sometimes, at dead of night when I was asleep. I lived alone, had no friends or acquaintances, never gave anyone key or permission to enter. I am disabled/handicapped, deemed "gravely" disabled by Social Security Administration since January 2000. Evidence by SSA enclosed. I am very low income, with only SSI/DI (Supplemental Security Income and Disability Income) totalling \$865/month, to meet all of my needs. I am single, independent (by IRS and SSA codes), and live beneath poverty line. I am severely handicapped since birth, and it was not expected that I would survive childhood. It was believed I had genetic leukemia, as well as haemophilia. I sat in my room, and read. My siblings did not spend time with me, nor did my parents. I nearly died Summer 1978 of Guillain-Barre type paralysis and semi-coma. Again in 1979. And, by age 26, I was essentially disabled permanently from the general workforce, though before then, I had an exemplary early career.

In 1980, I interned for the United Nations Industrial Development Organization, Vienna Austria. I was Research Associate in Education and Manpower Training Programs. In the words of my boss, Mrs. Irene Lorenzo, I did "twice the work of all the other RA's combined, plus (mine) went straight to official U.N. print." In 1981, I did unpaid full-time volunteer service for our Nation, working, security clearance, as Jr. Foreign Service Officer equivalent for the U.S. Department of State, International Organizations, Economic Policy Unit, under Secretary Alexander Haig, Unit Director Lee Saunders, and Unit Deputy Director, Kenneth Yalowitz. I served with distinction.

I graduated from Wesleyan University, Middletown, CT (1983) majoring in Government and Economics. I co-developed, -designed, -and authored, economic's first and vanguard work, under Economics Chairman, Dr. Peter Kilby, establishing cost/benefit analysis (1983), later published 1985 by USAgency for Int'l Development.

under 1.181 (a)

Due to No Fault of My Own

Upon completing cost/benefit analysis and structured work-out examples (including multipliers), I moved to West Berlin (9/1983) to begin my independent research project, (credit crisis of the Third World, for which I was awarded a Deutscher Akademischer Austauschdienst (DAAD) fellowship [w. Germany's Fulbright equivalent, but generally only awarded at graduate and post-grad levels, not undergraduate (I was the first Wesleyan alumnus in its 150-year history to receive one)]), and also attended graduate classes at W. Berlin's

Freie Universität Berlin (Free University of Berlin). Based on rave success of my independent work, I was awarded the very rare distinction of a second year's Fellowship, expanding to the World Bank, IMF and Special Drawing Rights.

In Spring 1984, I began work, half-time, at Citibank Berlin, a five-officer corporate international boutique, as its financial statement and numerical analyst. Doing a sixty-hour a week job in less than twenty, I created and maintained a perfect book for Citibank, without any delinquency, late or missed payments, defaults or downgrades, during my two years there. Citibank Berlin was the finance arm of the Kennedy Berlin Air Lift Mission. I was the only native English speaker, and non-German officer. Also, in 1985, I, single-handedly, as one-man team, defeated, in every banking performance category, all of the major German banking multi-person teams (them armed with laptops and mainframes; me with \$2 calculator) in that year's IBM-sponsored Bank Management Simulation competition.

I also consulted, 1985-86, for Wirtschaftsförderung Berlin (Berlin Economic Development Corp - a State-run industry-assistive operation), in Finance and Taxation (under Director Knut Petersen), American corporations.

Finally, after my DAAD's ended (5/1985), I continued to independently invent, conceive, design, document and present multi-national composite currency (trade-weight balanced) to FU Berlin, Citibank and EDCB, which then later became, the Euro. I was, and still am, uncompensated for my invention.

Due to No Fault of My Own

During to recurring bouts of my illness, I returned to the USA in early 1986. I received the Marcus Nadler Fellowship in Finance from NYU Graduate School of Business, but retired after 1½ semesters from illness, which from then on kept me unable to maintain regular full-time schedules. With my girlfriend, we went to Rhode Island, then back to Pennsylvania (East side) where I grew up. I took up trade jobs when I could, played, composed and recorded a large body of novels, original music, and photography, over the next ten years. I maintained learning by reading and researching on my own, entire areas of human endeavors. I made over 200 songs, as private (unsigned) recording artist, some songs of which I registered for copyright (I have over 30 copyright registrations at the US Library of Congress Copyright Office - the certificates of which were stolen, as well), such as my "Agent Edgar-DeLuxe Archangel", my "Copies by DEAD", and "D'Zmura". All performance, recordings, composition, lyrics, instrumentalization are mine, alone. Never I have parted them, or signed or assigned any part or portion to anyone ever. All-infringed.

In 1995, it was announced that the International Association of Financial Engineers (IAFE), Exec. Dir. Dr. John Marshall, was to hold a special two-year Master of Science in Financial Engineering degree, the first of its kind in the world, to the highest, most demanding standards, supported by a \$2 million grant from the Sloane Foundation. The two-year program, under Dr. Marshall, Dr. A. Kalotay, and Dr. M. Dorigan, would be held at Polytechnic University, Brooklyn, NYC. I applied, and was provided full scholarship. Rigorous indeed: of 25 entry candidates, only eight of us walked across the diploma podium in June 1997. I graduated in three semesters, and finished atop of my class. My independent research project, on depository banking default and catastrophic loss in Property & Casualty insurance, was the only research professionally published: see my "Forecasting Expectations..." of 3/1998, CIFE (Computational Intelligence in Financial Engineering), IAFE/IEEE NYC. My work, comprising numerous inventions and improvements, forms a divisional group in my US Patent "Invention in Finance", whereby I duly filed timely

Due to No Fault of My Own

I was an original member of the IAFE, joining it in its initial year of inception, 1993, when I lived at 207 N. Main St Doylestown PA, in a tiny one-bedroom apartment, getting by as a part-time estate house painter and fine dining waiter. During my Summer vacation, 1996, between semesters in my M.Sc. FE program, I succeeded where Einstein himself believed no one could ever achieve it: I derived precisely, by differential calculus, Change with Respect to Time, also known as the Fourth Dimension, and, in physics and finance, as Duration. Further, I then also succeeded in solving, again by diff. calculus, its Change with Respect to Change, called Convexity. As Einstein postulated, and as I proved in my Formulae and Coded Algorithms, Duration is of negative magnitude. I submitted to USPTO, my first patent application, pro-se Independent, in 11/1996 of this invention group of mine, which also included further inventions of mine, an universal valuation mechanic enabling wholly industry-disparate financial instruments (fixed-income securities (bonds); equities; and insurance policies) to be comparatively valued. Also, my provisional filing of 11/1996 contains my Replicated Equivalent Primary Securities (REPS), its compositional process, and trading system based thereon. In my first filing, I solved what Einstein and no one in 100 years of physics, mathematics or quantum could solve, as well as unite all types of financial securities under a single universal valutive framework, and made the compositional mechanic for portfolio hedging, immunization and arbitrage. As first, and with extraordinary value in finance industry, energy physics, light, quantum and field theory, I claimed, and patented (world's first patent of mathematical formulae and their coded algorithms) Duration, Convexity and universal valuation (also with energy industry applications) in my Patent # 7,236,952 "Investment in Finance", just one group of a dozen Divisionals within my grand conglomerate treatise, of which all inventions, text, drawings, authorship, prosecution, claims, rights and entitlements are mine, alone.

Petition to the Director

under 1.181 (a)

Due to No Fault of My Own

My "Invention in Finance" contains many important inventions in divers critical financial operations. For instance, my Ratios pertaining to safe/precarious indicators of depository bank solvency absolutely indicate, and, I invented them to assist the FDIC, our Federal Bank System, and Bank Risk-managers to track, detect and avert trouble. Instead, it was clearly infringed by Chase (several Poly FE's went to work for Chase) to identify, marginalize, collapse and absorb banks at risk. (No - I was not paid - in fact, I have never ever earned even a dollar, Euro or Yen, or Pound, for my works which constitute over half of leading-edge contemporary "rocket-science" finance - a multi-trillion dollar a year (US alone) industry). Add my 11/8/2007 US Provisional #61/001436 "Energy of Financial Instruments" (never published or sold by me - yet (copies) stolen) and it covers 3/4 (half of trading). Almost all valuation specialists are using my patented, claimed Algorithms in my "Invention in Finance" - full-scale, full-industry infringement.

During my Spring Break vacation, 3/1997, I penned out the central and crux hub inventions and inventive steps, and, the mappings of the outlying destination inventions, comprising my complex set of over 150 inter-related inventions solving empirically, and, in so doing, unifying every aspect of world astrologies, in my 3/1997 provisional. From among its dozen Divisional Groups, from my US/PCT 00 and 5/5/2001, and 10/18/1998, I have patented five of the groups. Seven remaining. Of patented, the cloth of my prodigious treatise appears to be the field of astrology (in the words of Australian patent examiner, "you have created a monopoly on an entire field of human endeavour"). Yet, it is really my Astro Logic, which comprises astronomy, telemetry, coordinate systems, system conversions, near-Earth geo-locating, GPS, telecom, in addition to the solution eluding astrologues and astronomers for over 6,000 years - the locus of the division, wherefrom precise alignment of Northern and Southern hemispheres can be precisely known any specific day -

All of My Works (Intangibles).
(free and clear)

My patent, "Stars in Ecliptic Coordinates" #7,083,415, moved near-Earth telemetry, satellite and GPS into the 21st Century. Notice how fewer calls drop? My coordinate conversion process, from equatorial to ecliptic enables not just stars to be catalogued in celestial longitude and celestial latitude (essential to plot stars/constellations in astrological charts, or any solar system plot, themselves mapping planets in ecliptic coordinates, whereas prior art star catalogues map stars in equatorial coordinates of right ascension and declination: incompatible without my claimed and patented process), but to locate immediately, precisely and without numerous iterative steps or numerical approximation means, the specific pinpoint of satellite to ground location (be it cell phone, tower, suspect vessel or vehicle) because Earth-ground locations (such as on a globe) are in geographical longitude and latitude, and hence, readily, simply, exactly convert to celestial ones. Hence, my patented process is the key inventive step for 21st Century Earth to near-Earth telemetry, communications, GPS and high-speed identification (and low-use CPU with approximation error) of target. This is hugely important to our Nation's telecom, aerospace and security. Also, my process (I discovered on Internet) is grossly infringed, not just by gigantic-scale industrial, scientific and military operations, but by some unknown, unlicensed whole-sale patent and copyright plagiaristic rip-off book being sold to the public. No permission ever requested and ever worsen - my Astro patents, Class 434 Education and Demonstration, means every "Astrology" book coming out, every Blog, Chatlist, pseudo-astrologer, chart infringer, "Google book" whole-sale infringer/plagiarist, are not just hurting me, and stealing all of my hard labor for years (alone in my apt, sick, working weeks, or months, or years on end, by myself, for myself: pro-se independent, not in hire), but are perpetrating criminal patent class infringement - and the USA cannot allow this, for that violates our Nation, all PCT member Nations, and our Nation's rights.

(free and clear)

I have worked over fifteen years on invention, all at my own time, learning, thought, pondering, analyzing, refining, solving, discovering, writing and drawing, in my own home, privately (not a business, home office or business address), amidst horrible suffering, agonizing pain of very severe maladies (for over 40 years of my life mis-diagnosed), very alienating grave, acute, subacute and chronic maladies. I work by myself, in my own home, where, always, I have been the sole tenant, resident, inhabitant. Every year of my life since leaving college, I have lived alone, without roommates, relatives or associates. Every year, I have met the IRS and SSA guideline codes of independent - if also desperately poor. I have been handicapped since birth and disabled (gravely) per SSA since January 2000. Years 1996-1999 I scraped by barely financially with some part-time consulting, proofreading, house painting (none related to my inventions) to eek out a poverty-line existence, amidst knowledge I was very ill and unable to have regular job or pay. I worked extremely hard, persistently, and deliberately, (without supporter, collaborator, partner, co-worker, assistant or attorney/CPA/agent/rep/mediator/co-party), because patent and copyright laws say I get paid ("All are expressly prohibited"). It is, was, and remains my ticket to economic independence, wealth and income. I have no income from my works. All are in multi-billion, and multi-trillion dollar (USA alone) industries. All are core, critical, important, fundamental and/or revolutionary improvements. My only Counter-Party is the USA government. I sent you my works. You properly assessed them bona fide, and granted me patents. USA and I are being ripped-off by infringers, and USA is being scapegoated or being made negligent in its law enforcement. USA is losing tremendous value, economic growth, leadership, world standing due to others' crimes.

David Andrew D'Zmura (us/us)
pro-se Independent Inventor and Author,
sole Inventor, sole Applicant, sole Owner,
sole Author, sole copyright holder of
All of My Works (Intangibles).
(free and clear)

I have written and requested Replacement Ribbon Copies (Duplicate Letters Patent) now several times since first reporting the theft/loss of my beloved, hard-earned, keepsakes of my lonely contribution to the world. I have never even received a reply, let alone any Duplicates.

I don't have money to buy them - nor should I have to. The loss was Due to No Fault of My Own. I kept them safely as I possibly could. I have been gravely disabled since ten years - no income, except starting in 9/2004; SSI/DI totalling only \$865/month to cover all my life expenses, including housing, utilities, transport, food, etc. Sub-poverty-line. Do you know who you need to thank that USA is free today? A hand-capped man (Franklin Delano Roosevelt) and a disabled man (Sir Winston Churchill). They led us to victory.

In 2005-2009 I was finally correctly, scientifically, test-proven, diagnosed. Four severe genetic metabolic and mitochondrial disorders. ICD-10 E80.0 - E80.2: International Classification of Diseases:

- 1) ALA Dehydratase Deficiency Porphyrria (neuro-visceral) metabolic
- 2) Acute Intermittent Porphyrria (neuro-visceral) metabolic
- 3) Hereditary Coproporphyrria (neuro-visceral) metabolic
- 4) Congenital Erythropoietic Porphyrria (bone marrow) mitochondrial.

Plus, genetic internal-bleeding type haemophilia. I bled nine months last year.

In addition to this, I have sustained hundreds of murder assaults, muggings, maimings, stalkings, and grisly maimings by packs and gangs of stranger hoodlums shooting at me with anything from live-ammunition guns (since 2007), high-powered laser guns/rifles, concussion bombs, sonic ear piercing/bleeding guns, lacerating weapons.

Due to No Fault of My Own

Shortly after publication and my presentation of my "Forecasting Expectations..." Proceedings of CIFE Conference 3/1998 NYC, and coincident with my filing my PCT/US98 Astro, my mail, phone, any email and ever since have been constantly thieved, tampered, pirated, hijacked. By imposters. That was when I lived in NYC, 64 W. 82nd St #5F New York NY 10024. The phone and email pirating traced to an unknown stranger, named "Robert Soleby of Reston VA". Persons attempted murder on me, 8/1998. I reported it to US Attorney Office and NYPD. US Secret Service came, and told me, I was being hugely embezzled, but did not tell me by whom, what money, where it was; nothing helpful. And so it's been with police here in California. In 3/2003, Deputy told me there were murder plots on me. No specifics, no protection, no advice. One month later, they began and have never stopped. I'm not a celebrity. I'm a quiet loner, at home by my self most of the time. I have no friends, and scarcely even know my siblings. Before coming to Cal., I had no contact with them for twenty years. Here, now eight years, hardly any - and never anything with them. Or any relative. I have no business, or business with relatives. Early March 2004, dead off night trespasser broke in and shot me point blank in the head (stun gun?). Caused severe brain lesion and hemorrhage to my left claustrum. I called 911. No medical help came. Each year, I have a brain MRI. Each year it shows more brain. And everywhere else, causing horrible internal bleeding, brain pressure seizures, convulsions, paroxysms, transient strokes. I have no heir, no spouse, no children, no beneficiaries. I leave nothing to my parents and siblings and relatives. They tried to murder me in 1968. Why? I don't know. I'm the only one with genetic disorders. Who are they?

Due to No Fault of My Own

You know so little about me - yet you are my Counter-Party. I have a large raised mole between my shoulder blades. Darkish blue-grey eyes. In 2003, I solved unified field theory. Proved it apparent. Corrected, making actual relations between the fields. $cm = Mc^2$. Never got to file, was attempted murder on, early 3/2004. Doctors said I'd die soon, no chance of walking or talking. I proved them wrong. Police were supposed to protect me, even APS (Adult Protection Services) from abuse/violence. No help. My writing "Free Energy" is partly dissheveled to keep certain parts secret. (as well as my mathematics stating unified field theory, apparent relations and actual relations). It is my energy apparatus to power electrical grids - not nuclear, not chemical, no by-products. Could save humanity. You never got my "Methods to Saving Life on Earth" (thieves tore it up and stole most chunks of it). You are dealing with anti-American terrorists, traitors to USA, and criminals against Humanity.

I have no money, no prospects (permanent grave disabled): please decide to:
A) Provide me Ribbon Copies and Duplicate Letters Patents on All My Patents (soweveirs)
- free of charge: Send Ribbons and Letters to Me Personally

B) Remove any and every Divisional and Provisional Patent Filing of Mine from Abandonment, and let me prosecute them free of charge
(I am not a small or large entity. I am a sub-poverty disabled/hand-capped.)

C) Advise the US Dept. Commerce, US Treasury and Executive Cabinet to License, for USA science, industry, technology and securities, my Intangible Asset wealth. It levers \$500 Billion in US Treasuries.

The Treasuries would be Centarians (20 yr patent, and life + 70 yrs copyright)
The Treasuries would be owned by USA Federal gov, and retire to US gov.

The Treasuries pay me royalty (perhaps 8% patent plus 4% copyright during term).
The Treasuries are not "fiat", but backed by my vast Intangible Assets.

The US Dept Commerce, Cabinet can decide on how to license different parts to whom.

My 2003-present, and future, inventions can be included, with special provisions.
The USA needs long long term Treasuries (these are minimum 70 years) and needs more solvency.
USA industry, culture, science, military, space, GPS, telecom can be best in world.
USA with multipliers, will realize over \$10 Trillion within 10 to 20 years.

OFFICE OF PETITIONS

You asked us for information from your record. The information that you requested is shown below. If you want anyone else to have this information, you may send them this letter.

Information About Current Social Security Benefits

Beginning December 2008, the full monthly
Social Security benefit before any deductions is.....\$ 329.50

We deduct \$0.00 for medical insurance premiums each month.

The regular monthly Social Security payment is.....\$ 329.00
(We must round down to the whole dollar.)

Social Security benefits for a given month are paid the following month. (For example, Social Security benefits for March are paid in April.)

Your Social Security benefits are paid on or about the third of each month.

Information About Supplemental Security Income Payments

Beginning December 2009, the current
Supplemental Security Income payment is.....\$ 536.01

This payment amount may change from month to month if income or living situation changes.

Supplemental Security Income Payments are paid the month they are due. (For example, Supplemental Security Income Payments for March are paid in March.)

There was no cost of living adjustment in Social Security benefits in December 2009. The benefit amount shown is current as of the date on this letter.

Type of Social Security Benefit Information

You are entitled to monthly disability benefits.

Type of Supplemental Security Income Payment Information

You are entitled to monthly payments as a disabled individual.

We have determined that your disability began in Jan, 1 2000 *SSN [redacted] CR 268*
If You Have Any Questions

If you have any questions, you may call us at 1-800-772-1213, or call your local Social Security office at 866-614-4769. We can answer most questions over the phone. You can also write or visit any Social Security office. The office that serves your area is located at:

1. Housing Choice Voucher Program

A. The public housing agency (PHA) has determined that the above named family (item 5) is eligible to participate in the housing choice voucher program. Under this program, the family chooses a decent, safe and sanitary unit to live in. If the owner agrees to lease the unit to the family under the housing choice voucher program, and if the PHA approves the unit, the PHA will enter into a housing assistance payments (HAP) contract with the owner to make monthly payments to the owner to help the family pay the rent.

B. The PHA determines the amount of the monthly housing assistance payment to be paid to the owner. Generally, the monthly housing assistance payment by the PHA is the difference between the applicable payment standard and 30 percent of monthly adjusted family income. In determining the maximum initial housing assistance payment for the family, the PHA will use the payment standard in effect on the date the tenancy is approved by the PHA. The family may choose to rent a unit for more than the payment standard, but this choice does not change the amount of the PHA's assistance payment. The actual amount of the PHA's assistance payment will be determined using the gross rent for the unit selected by the family.

2. Voucher

A. When issuing this voucher the PHA expects that if the family finds an approvable unit, the PHA will have the money available to enter into a HAP contract with the owner. However, the PHA is under no obligation to the family, to any owner, or to any other person, to approve a tenancy. The PHA does not have any liability to any party by the issuance of this voucher.

B. The voucher does not give the family any right to participate in the PHA's housing choice voucher program. The family becomes a participant in the PHA's housing choice voucher program when the HAP contract between the PHA and the owner takes effect.

C. During the initial or any extended term of this voucher, the PHA may require the family to report progress in leasing a unit at such intervals and times as determined by the PHA.

3. PHA Approval or Disapproval of Unit or Lease

A. When the family finds a suitable unit where the owner is willing to participate in the program, the family must give the PHA the request for tenancy approval (on the form supplied by the PHA), signed by the owner and the family, and a copy of the lease, including the HUD-prescribed tenancy addendum. Note: Both documents must be given to the PHA no later than the expiration date stated in item 3 or 4 on top of page one of this voucher.

B. The family must submit these documents in the manner that is required by the PHA. PHA policy may prohibit the family from submitting more than one request for tenancy approval at a time.

C. The lease must include, word-for-word, all provisions of the tenancy addendum required by HUD and supplied by the PHA. This is done by adding the HUD tenancy addendum to the lease used by the owner. If there is a difference between any provisions of the HUD tenancy addendum and any provisions of the owner's lease, the provisions of the HUD tenancy addendum shall control.

to include purchase, gas & electric:
Per R. Wynn: my total available for housing + out employment purchase \$1057 p.m.
subsidy of \$558 p.m. + my contribution of \$250 p.m.
Ref. R. Wynn: portable at 4/1/09 standard HUD-52646 (7/2000)

RECEIVED

JUN 25 2010

Dear Director of the USPTO:

(wherein paying me annual in advance ^{OFFICE OF PETITIONS} Royalty Interest)

In utilizing my Works (Intangible Assets) to underwrite US Treasuries/Bonds (Tr/Bs),
and, for US Federal leadership to assume license and to bear authority in full
to sublicense parts of my works as best suited to the nature and
industrial applications of the respective parts, the US leadership will
have free-hand from me. That is, leadership is welcome to inquire
as to my thoughts or opinions on sub-licensing or distribution of
licenses by parts, but has full and free authority to decide and direct
implementation and specification to industry, scientific and/or
National/State entity use-license, and sub-license, as it deems

licensed
and retains
all earnings
therefrom

In converse, similarly, while the vast US Treasuries and/or State and
Municipal Bonds that are underwritten by my works (which I
estimate to approach ^{or exceed} \$500 Billion: ^{maturity} 70 year to 100 year Tr/Bs),
the Tr/Bs retire at maturity back to the US Treasury and/or
State/Municipalities, that is, the principal face value is of,
and for, the People of the USA. However, ^{converse} ~~similar~~ as to use-license,
I shall direct and chief executive the applications and allocations and
investments of these Tr/Bs, serving the Peoples' interests, our
Nation's welfare, and our Economy's growth, security and development.
I am a top professional in the field areas of industrial development,
banking, securities and insurance, agriculture and nature
preservation, and have at heart, sympathy and compassion to
Americans of all walks, races, creeds, education and vocations,
and am especially keen to utilize my executive and analytic, and
constructive, sound comprehension, to solve and further our Goals.
In so applying the Tr/Bs, I will consult and inform with US/State leadership,
provide on-going status and routine reports, and save America millions
in management salaries, middle-of-the-pack business leadership and blip,
flat, or merger results, from the point-of-view of aiding and solving
outstanding National and/or State/Municipal priority agenda items; this,
coupled with an eye to highest standards of benefits over costs, creating
and saving lives, jobs, welfare and standards of living of our People, and
economic solvency of our Nation's governmental budgets, industries and localities.

Director of the USPTO / USPTO

As indicated and briefly recited in my eleven-page Petition to the Director, I am extremely adept at top-end financial, economic, investment and industrial matters, both via education and by experience. I bring an added dimension to a new modest Tr/B facility, complementing our Nation's / States' / Municipalities' own, much larger, self-directed bond-pool resources. I have several important agenda items, which can be briefly cited herein, so you understand where and how I intend to direct the underwritten Tr/Bs. For many of these, they are pure Governmental, that is not-for-profit, but for survival and security, solvency and maintenance of civic welfare. For others, there is a for-profit environment, hence, my Tr/Bs take a stake, albeit at discount or near-to-zero immediate per value, but with the mode to up-value the industry-sector by capital infusion, to which, in addition to my set Royalty / Interest per annum on the Tr/Bs, I may earn value as my methods and leadership ascend value of the target industry and/or major US public-listed corporation(s) needing or requiring bail-out, solvency infusion, to secure our People:

Example Investments (not in express rank order)

A) \$50 Billion SEC bail-out (in addition to any other US/State funds) where, after analysis, zero-net or negative net value SEC assets are received, in return for future earnings, recovery, recoup thereon;

B) \$150 Billion State of California Budget Deficit Termination (and Return to Solvent Investment-Grade) as the world's sixth-largest bordered Economy, and at sub-investment grade, this State, and our Nation are gravely imperiled by this current, growing, unabated deficit boondoggle. In return for cancelling its deficit, California can pay my Royalty / Interest for that position (of the \$500 Billion) - greatly less than current deficit maintenance.

C) \$15 Billion Salton Sea clean-up and Anza-Borrego State Park Recovery / Preservation: following on my de-salination, de-contamination, and termination of deadly single-cell algae blooms, which I presented to Congressperson Mary Bono-Mack over six years ago by letter, I would employ distributed de-salination ^{stations} equipment (prior art 40 years of UNIDO and USAID), coupled with UV single-cell extermination, whereby the water de-salminates, contaminants adhere to extracted salt crystallizations, fish and migratory birds again flourish, air quality from Joshua Tree to Mexico greatly improve - aiding human and animal life and health, and, greatly showing up property values throughout Coachella Valley and NE County SD, County Imperial, County Riverside, County San Bernardino and Anza-Borregos.

I am top champion banker, and world's top Financial Engineer

I will structure this facility as a AAA bank.

As long as:
a) State California and City Indian Wells Sponsor BNP Paribas
b) tournament / California repays Indian Wells its Bonds for Stadium
c) I get steady ride low front box suite for life

This Step Saves Nation and USPTO Treasury.

And \$1.5B in wildfire fighting equipment, standby trained manpower.

And \$1.5B in Aid to California State Parks.

And \$1.5B additional Rural and State Hwy Law Enforcement.

Without changing size of Salton Sea

Deal Advisor

Director of the USPTO / USPTO

Example Investments (continued)

- D) \$35 Billion Ocean Water De-Salination to Human Potable Standards for City of San Diego, County of San Diego, Coastal Cities SoCal, etc. To form methods and model extensible to Los Angeles County Coastal USA. There is not enough water in the Colorado River to quench Coastal Southern California. The Nations of UAE, Qatar, (and Kuwait and Saudi Arabia in part) de-salinate ocean water to Human Potable standards (prior art equipment UNIDO, USAID et al.), including fully all water needs for drinking, bathing, washing, agriculture. UAE and Qatar have the highest per capita Income / Standard of Living in the World. Our SoCal Cities (esp. SD) need to start up now.

We are surrounded by Atlantic and Pacific and Gulf Oceans. 75% of our population lives within 15 miles of Coastal Water.

Clean-Up ASAP Saves USA

- E) \$15 Billion Gulf Clean-Up funds, to engage now-unemployed fishermen, national and regional persons to pro-actively clean-up the oil spill damage, hurricanes, wildfires, as soon as possible, and into the middle term, to stem habitat death.

Averts major meltdown. Recovers/saves substantial resources. Secures our posterity and accommodates growth

- F) \$25 Billion Displaced Worker Public Works Programs, aiding and training and providing yearly work to unemployed, esp. auto and Gulf industry, UGW, workers. PWP's include training, and checking and repairing, identified/ying failing / failed equipment, leaks and losses, juncture points, lines and pipes of USA's (nation-wide) electrical, water, sewer, gas utility systems thoroughly, point-to-point, whereby, end-effect, greatly reducing system loss, overload, thereby reducing production / distribution to meet demand, lowering resource usage and utility costs. Includes check / fix of homes and businesses.

150 year Energy Needs Met Nationally - Oil Free - Nuclear Free

- G) \$25 Billion Set-Aside to Build up Oil Reserves on Hand Nationally; while, develop and implement clean-coal powered electrical grid plants.

Specialty Interest of Mine

- H) \$25 Billion Southern and Western Sunny-Sky Solar Electrical Arrays.

Excellence in Prior OutPerformance in New Technologies

- I) \$25 Billion Auto Industry Capital Injection, to Revitalize Industry / Solvency.

recovers much owed money, balances current cycle years

- J) \$15 Billion Best and Brightest Full Scholarships through to Doctorates, so long as rigorous standards of achievement are met; in Voc-tech; B.Sc.; M.Sc.; Mathematics; Natural Science; Biology; Chemistry; Medicine; Engineering.

Not "Credit score" or "reported income"

- K) \$10 Billion Law Enforcement Public Works Programs - expressly North American Border patrol, US private and Regional Airports, Trains and Bus Terminals; IRS Audit Agents (Federal and State / City) and Coordinated Tax A.Dist. Attorneys.

"go to relief" stopper

- L) \$75 Billion Fannie Mae Mortgage Facility based on bonafide, bonded escrowable mortgage payments, indefinitely, such as Pensioners, Disabled / Handicapped, Veterans Beneficiaries, long-term salaried employed - direct deposited into escrow.

FINI

- M) \$50 Billion US Treasury "13th Man" to Fed Reserve Bank 12 EB Dutch Auctions, all or to gap short-bridges, purchase out newly issued, supplement shortfall auctions. FINI

Re: trying to be helped to County, disabled, and Community, State and Nation

Dear Betty and Clint:

Note: None of my Works are under License. (Front-End). I have
never used or swapped any of my Deduction (Back-End).

As I mentioned, due to my many years in my independent vocation
as professional inventor, working solo, for over 15 years while disabled and
handicapped, not in hire or employee, not paid or salaried, and not in or
under contract to government, I have achieved tremendous and prodigious
results, in the disciplines and importance of my over 500 distinct inventions,
most of which I've filed with the US Patent and Trademark Office, and
earned "bonafide" (legitimate statutory invention producing patent) and
patents (on many of them already) from USPTO examiners and Authority.

Already in 2005, when I had achieved my first patent (2004), the
IRS granted me a personal US Federal Tax deduction facility - at that
point, valued at about \$14 million per year, for fifteen years. Since then,
I have achieved six more patents, and bonafide status on another 200
inventions, clearly greatly substantiating and increasing my deduction value.

I have started discussions with USPTO/Federal regarding licensing my works
(which also the State of California might wish to do) as it levers up many
billions of dollars of US Treasury, or State, municipal bond underwriting
(in fact, it could cancel California's deficit of \$150 billion entirely) - while
simply paying me royalty on that amount, for a century (100yr bond) which
essentially ensures USA (or California) very long term budget solvency, and
providing USA (and/or California) with license rights to commercialize my
inventions which are key, fundamental, grand prodigious entitlements
of 21st century leading edge science/technology in telemetry, GPS, satellites,
security, aerospace, the entire field of technology, energy and quantum physics
math and processes, and over half of all leading-edge financial, investment,
banking, insurance mathematics, risk management and valuation, portfolio, etc.
This front-end licensing is one side of the commerce of my works. The other
side, the back-end tax deduction (belonging to me personally, separate from
my actual patents and not attached to or contained by, front-end licensing.
- continuing -

Major Budget Deficit Relief Aid / Solvency : NOW.

II) Back-End Enables US Agencies (eg. HUD, Fannie Mae), US States, Cities, or Counties to Help Add / Retain Funds for Programs or Employees.

III) Front-End Licensing Enables US States to Use my works creating over \$1 Trillion/yr within five years.

I) My works can Underwrite \$150 Billion to \$500 Billion, currently. Thus, US Fed or Cal. State can write itself its own funded bond, it owns, principal in whole (as long as I am annually paid).

IV Front-End Licenser / Civic gains Largest Term Bonds / Treasuries (B/Tr) (centarian : 100 years (minimum 70 yrs if I died today), securing solvency, for generations to come. Also, presently, the USA and States (eg. Cal.) otherwise have almost no longest-term Tr/B underwriting capacity.

V As Royalty Interest, I owe no Tax to Front or Back-End Ms. B. Johnson and Mr. C. Magaffin Entities. Dept. Housing / CoSD cc: U.S. Patent & Trademark Office.

Re: trying to be helpful to County, disabled, and community, State and Nation

So, there are two parts : front-end (licensing) / budget, back-end (deduction)

Licensing → front-end

Summary

Treasury / Bond Underwriting where Gov owns its Own Tr/B, hence gains full principal face amount to its own budget and benefit, never paying principal.

- a) USA Federal or State (s) license my works.
- b) My works permit Bonds / Treasuries to be Underwritten (100-year length)

- as my protection is 20 yrs patent and lifetime plus 70 years copyright - must all of my works are protected by both patent and copyrights - I am the sole Owner of All My Works, Patents, ©.

The USA Federal or State (s) or Municipality own the Bonds / Treasuries themselves. Thus, free money that clears all or part of the budget deficit.

d) USA Federal or State (s) pay me Royalty (but not principal) or ad for the Treasuries / Bonds underwritten (based on license rights to My works), also called Interest for life of B/Tr. : 20 years pay Patent and Copyright lifetime plus 70 years pay copyright.

e) USA Federal or State get B/Tr they own - thus, cancels outstanding deficit and/or adds long long term finance. At end of B/Tr, payment (annual in advance) to me ends, B/Tr is closed (cannot be prematurely ended). USA or State pay no principal out. USA / State own principal face amount of B/Tr whole time.

f) USA Federal or State determine and distribute sub-license rights to Corp, industry, science, gov Agencies, as they choose (or sell) to do so.

pro-se

David Andrew D'Zmura (us/us)

P.O. Box 1845 Burgo Springs CA 92004-1845

Page two of two No Employer No Associates / Assign

Note: As per page one: All Rights Reserved. Patent Pending. 2010. David Andrew D'Zmura.

Deduction → Back-End

Summary: us / state / local bonded entities reduce federal payments via swap.

a) IRS code granted me 15-year straight-line personal (not severable, inheritable or saleable) tax (US Federal) amortization deduction in 2005 (\$14 M/yr then) : I have never used. It is based on Fair Market Value of my Works.

b) As I have never used any of it, I can use some, any or all of it, starting whenever. I can apportion it. My return / income must help / aid / pay / finance my works I do, continuing inventing / commercializing.

c) Whereas my deduction is mine, personally, owing to my valuable work as inventor (and not tied expressly to my Patents), and whereas, I cannot sell, give, gift or donate it, I can, under net-equal benefit, swap to bonded entities (US Fed Agencies, State, City, County municipalities, or major investment-grade bond-issuing public-listed industrial corporations).

d) A net-equal swap means that the bonded entity can reduce its Federal tax payments or Federal payments burden by amount according to portion of my facility that I swap to them. This saves them, or, if they distribute it to their employees (salaried), their employers, Federal payment expense (for employers, a synthetic pay-raise, because they pay (are withheld) less Fed tax on paycheck).

e) The amount saved / retained / gained by the bonded entity is calculated fairly. I am then (throughout or in advance) paid net-equal (one-half) of saved amount.

f) Based on Front-End principal of B/Tr, the FMV will greatly rise, giving far greater net-equal swap capacity.
